

Corporate Volunteering

Join Greens Bayou Coalition in promoting environmental conservation in the Greens Bayou watershed! Local companies and corporations interested in giving back to their community can help clean up along the bayou, basins and parks in the watershed, plant trees, sow wildflowers or remove invasive species.

Corporate Volunteering

Through Greens Bayou Coalition's Corporate Volunteer Program, employees can volunteer for two hours on a project that will make an impact. Your efforts will make the Greens Bayou watershed a more flood resilient, attractive place to live, work and play.

We can help you plan a unique volunteer opportunity, tailored to the size of your volunteer group. We will handle the details to make the event fun and stress-free while you help care for the environment.

Participating in a Corporate Volunteer Program at Greens Bayou Coalition does not just benefit Greens Bayou watershed. Your company benefits! Your company provides environmentally-focused service and your employees are engaged in powerful team-building. You are recognized in our social media, on our website and in our newsletter. And it's tax deductible.

Greens Bayou Coalition is a 501(c)3 nonprofit and relies entirely on private support. We ask for a tax-deductible donation from each company to underwrite the cost of its project. Funds cover necessary costs of the event--tools, equipment, materials, as well as overhead.

Group Volunteering

Unable to donate at this time? Your group can also join Greens Bayou Coalition in promoting conservation and improving quality of life along the Greens Bayou watershed!

Group Volunteering

Nonprofit groups and other groups that are unable to donate at this time can still help with bayou cleanups, tree plantings, and other projects. While Greens Bayou Coalition cannot organize a project specifically for you, we will let you know when we have space available on upcoming projects that your group will enjoy as you help make the watershed a better place.
